**DRAMIX® 3D 65/35BG**

Dramix® 3D fibre series is the reference in steel fibre concrete reinforcement. Combining high performance, durability and ease of use. Dramix® 3D series is a time-saving and economical solution for most common applications. Dramix® 3D series exhibits:

- > Effective anchorage
- > High tensile strength

Dramix® 3D series provides a cost effective solution for tunnel applications:

- > Precast segments
- > Shotcrete

Fibres are glued for homogeneous distribution and easy mix.

Bekaert Maccaferri Underground Solutions offers extensive technical assistance in helping to determine the most suitable fibre type, optimal dosage and the appropriate concrete mix for a wide range of applications. For further information, contact your local support.
